Established in 2011, Al Thana International is a 100% Omani company and one of the Oman's most prominent construction contracting companies in Oil & Gas and Infrastructure industries. It is classified as category 1 in Tender Board for Road works and Water & waste water Service Companies for EPC major critical contractors.

Al Thana International also has JSRS approved contractor with Oman oil & gas industries. It is an ISO certified company with the team of more than 1500 well qualified and highly talented skilled employees and having more than 100 various heavy construction equipment represent the strength of our company.

An Overview

Al Thana group undertake major Civil, Electro Mechanical, Pipeline and Elect & Inst works in Oil & Gas industries through their group of companies "Al Thana International LLC Al Thana Petrochemical Services (SME Company) and Kingdom Advanced Services(Local Community Contractors)"

Our Portfolio

As one of aspiring business entity, our company has been driving in the domains of Engineering, Procurement and Construction (EPC), in Power, Oil & Gas, and Infrastructure Industries. Our continuous focus on innovation & expansion together with its commitment to quality and excellence has contributed significantly to the progress that the company has made over a short span of time, with aggressive growth plans for the business verticals that it operates in.

We commit that projects are delivered as planned to customers & clients. Our expertise makes, our company, the preferred choice for oil & gas infrastructure and commercial projects in Mechanical, Civil, Electrical & Instrumentation.

Vision

Our vision is to be the leading service provider of high-quality construction that exceed our clients' expectations. We strive to create innovative solutions that enhance the built environment and improve the communities in which we operate. We are committed to delivering projects on time, on budget, and with the highest standards of safety, sustainability, and quality. Our success will be measured by the satisfaction of our clients, the well-being of our employees, and the positive impact we have on society.

Mission

Our mission is to provide our clients with exceptional construction services by delivering superior quality workmanship, using innovative techniques and materials, and fostering strong relationships based on trust, reliability, and professionalism. We strive to ensure that every project is completed safely, efficiently, and with minimal environmental impact, while always maintaining the highest standards of ethical and social responsibility.

I am honored to address you as a Chairman of Althana group established in 2011 and servicing in infrastructure, civil, electro Mech construction company in oil & gas industries, Oman.

We are proud to be operating in Oman, a country that offers a supportive business environment and a wealth of natural resources. We are committed to contributing to the local economy and to developing the skills of the Omani workforce.

We have established a strong reputation for reliability, efficiency, and professionalism in the construction industry. Our extensive portfolio includes a range of infrastructure, civil, and oil & gas projects, showcasing our commitment to excellence and our ability to deliver high-quality work in a timely manner.

We understand the challenges faced in the oil & gas industry, and our goal is to build long lasting relationship based on mutual respect, trust by providing efficient, reliable services and to be recognized as leading construction company in Oman and beyond.

Thanking you for your continued support and trust in our company. We look forward to serving you and delivering outstanding results.

Best Regards,

ALI SALIM SUHAIL AL AAMRI,

CHAIRMAN

I am honored to join the team of highly talented professionals of Al thana group. With over 30 years of my experience in EPC oil & gas projects, I am confident that my expertise will enable me to bring new perspectives and drive growth for the company.

As the new CEO, my top priority is to ensure that we continue to deliver exceptional services to our clients and exceed their expectations. Our commitment to providing high-quality work and delivering projects on time and within budget remains unwavering.

As we move forward, I am confident that our commitment to excellence and our strong relationships with our clients will continue to drive our success.

We are confident that our company will be a valuable partner of our clients future projects and look forward to working with them and building a bright future for our company.

Best Regards,
P.R.S.KUMAR,
CEO.

Oil & Gas:

We tender Avant-grand Solution to our oil & gas industries clients. As an aspiring Service Provider to oil & gas industries. We do projects particularly Civil, Piping, Structure and Mechanical works.

We have ability to construct and deliver best solutions on time While maintaining safety & quality standards. We Provide Services at Civil Excavation, Concrete, Building civil works including MEP, Erection of equipment Site Fabrication of Steel piping and also Electrical & Instrumentation works.

We also provide Skilled Technician's such as Steel fixtures, carpenter, Mason, 6G pipe welders, pipe fabricators, Electrical Technician's to Main Contractors of Oil & Gas industries.

Pipeline & Piping Structure

We have undertaken cross country civil pipeline works 24 gas pipelines with Gps for OQ. Also our pipe welder fabricators grinders and other skilled pipe technicians are under supply with major main contractors of oil & gas industries.

Althana group provide services in installation, testing and commissioning of various piping and pipe line works which includes, CS, AS, SS, HDPE, GRE in above ground and under ground location in oil & gas industries.

Electrical & Instrumentation

Our team of electrical & instrumentation skilled professional are being supplied to major oil & gas epc contractors. Althana group has an experience in Switch gears, transformers, motors, cable tray, conduits and cable pulling works

- Supply & installation of heat tracing works.
- Installation of FOC cables, termination works.

Civil infra & Highway

Althana group has vast experience in plot development, padding works for gas manifolds, gas stations and for rigs with PDO, OXY, OQ and other oil & gas industries. Right of Way for gas pipe line project trench work by manual with equipment and trencher machine pre padding , post padding, back filling and windrow making. We are specialized in steep slop trenching cutting works in hilly terrain and have completed more than 100 km ROW, trenching & back filling works with GPS/OQ for 32" gas pipeline project Althana group has skilled work force to undertake, all types of cast in situ & precast concrete works.

Sub: Appreciation for your contribution in 20" Gas Pipeline to Raysut Steel Project

Dear Mr. / Ms.

I would like to thank you for your outstanding contribution in the project. Your Company successfully completed the Project on schedule, adhering to HSE requirements of OQ, without any LTI and meeting all the specifications of the project.

Your dedication to work is resulting in increased output for the work progress of the project as a subcontractor to GPS company. We expect for your company bright future for other projects and to deliver the same quality of work.

OQGN thanks the company for playing such an important role in the project. We are grateful for your great contribution to in 20" Gas Pipeline to Raysut Steel Project.

Yours sincerely,
Simon Borde

Project Manager

HSE

The safety and health of our employees, and the environmental sustainability is crucial within our defined frame work. Al Thana diligently meets the statutory requirements and exercise additional policies.

“To make certain that our safety and Environmental procedures are followed and regularly checked with our internal auditoro, Al Thana’s HSE manual is Compliance with ISO 14001:2015 and ISO 45001:2018

This is Furthered with safety induction, awareness programs, periodical safety training programs.

HSE Mission

To make all employees owning their individual & Collective responsibility for safety, Health & Environment, ability to identify hazards by themselves and mitigate such hazado in a timely manner and participate & contribute in every possible way and means for the protection of people, property and plant.

HSE Objective

“We aim our employees safety return back to their formalities.” We ensure that health, safety & Environment is maintained by:

- ❖ Performing regular HSE internal audits.
- ❖ Reporting & Review of near misses.
- ❖ Motivating our employees.

شركة الثناء العالمية للتجارة والمقاولات ش.م.م Al-Thana International Trad. & Co. L.L.C

HEALTH, SAFETY & ENVIRONMENT POLICY

Health, Safety & Environment (HSE) is the leading core value of Althana Group of Companies and addresses our social responsibilities and contribution to sustainable development. Protection of the health, safety of the people and commitment to environmental laws and regulations are the foundations of our business ethics. The Group believes that all injuries, occupational illnesses, environmental incidents are preventable and with this premise, we strive to be a leader in HSE compliance.

The Group requires active commitment and accountability for HSE from all employees, suppliers and sub-contractors. The Line management has a leadership role in the communication and implementation of, and ensuring compliance with, the HSE policy and HSE Management System (HSEMS).

The Group is committed to:

- Ensure people, environment and assets are not exposed to risk by proactively evaluating risks of occupational injury/illness, property damage and impact on environment, and implementing actions to control, monitor and mitigate the risks.
- Incorporate HSE into all activities by identifying, assessing and managing HSE issues in all stages of operations and by creating a culture of learning and practicing HSEMS procedures.
- Recruitment of competent personnel with defined role, responsibility and accountability so as to not to endanger themselves or others at work.
- Adopting best practices for HSE compliance by providing appropriate training, supervision, information and resources to all employees.
- Minimize impact on the environment through pollution prevention, optimum utilization of natural resources, reduced emissions, proper disposal and the reduction, recycling of waste and rationalization of economical consumption of materials and resources on all work sites.
- Address and comply with the requirements of clients, statutory authorities and local communities by developing and maintaining HSEMS to meet applicable HSE norms and also verifying compliance through audit.
- Continual Improvement in performance, productivity, loss prevention and sustainable development by setting HSE objectives, measuring results & performance, auditing, recording and communicating them to employees. Respond and recover from any incident, emergency, crisis and disruption with effective plans.
- Actively promote a healthy & safe workplace by effective reporting and investigating incidents, implementing measures to prevent re-occurrence and communicating lessons learned to the workforce.
- Zero tolerance towards any non-compliance of the HSE Policy.

All employees, suppliers, sub-contractors and others working on behalf of Althana Group of Companies have a responsibility to comply with this HSE Policy. Althana Group of Companies upholds its commitment to further development by continually improving the effectiveness of our HSE programs through setting and reviewing objectives and communicating performance metrics to our clients, personnel and other concerned parties

NO SMOKING POLICY

Al thana Group of Companies encourages all its employees to practice good health habits and discourage the use of tobacco in any form which will affect the person's health and other's in form of passive smoking.

This policy applies to all employees of Althana Group of Companies as well as to visitors, contractors and temporary staff. We believe that the right to clean air and the health of non-smokers supersedes the right of others to smoke. Therefore, we clearly state that the company must be smoke and tobacco free at all times.

Along with the protection to non-smokers from the hazard of passive smoking, the reasons for enforcing this policy are various as follows:

- To safeguard the legality of the company by adhering to relevant legislation of sultanate of Oman.
- To limit the probability of fires started by improperly discarded cigarettes, cigars etc.
- To avoid falsely setting off alarms and smoke detectors
- To preserve the image of a clean workplace without unpleasant smells or smoking-related trash

For these reasons, smoking is strictly prohibited indoors and outdoors at company facilities unless there is a designated area especially for this purpose. This non-smoking policy covers all premises including bathrooms, hallways, staircases etc. It also includes company property that is leased or owned by the company (warehouses, vehicles etc.). The prohibition is in effect before, after and during working hours.

Smoking may be permitted during normal breaks and only at the Designated smoking areas/rooms and the employees who are smoking at the Designated smoking areas/rooms have to always extinguish their cigarettes and other smoking material (e.g. matches) and discard them only in appropriate containers.

At any time, smokers are advised to respect their fellow people by keeping a safe distance from them. Employees will be thoroughly informed of the guidelines of this policy through official bulletin boards, company newsletters or posts and appropriate signs. Employees who welcome visitors or clients on company premises are obliged to inform them of our non-smoking policy and point them to the designated smoking areas.

Employees who disregard the guidelines of this smoking policy will be subject to disciplinary procedures including termination from service depending on the severity or the frequency of the offense. This policy will be enforced with documented management commitment and review, supported through supervision and complied with by all personnel.

"REMEMBER THAT SMOKING IS INJURIOUS TO HEALTH"

SAFE DRIVING POLICY

The risk of injury to employees and damage to property as a result of accidents while employees are driving Group's vehicles or operating mobile construction equipment are well recognized.

Althana Group of Companies is committed to the safety of its employees and third parties and has the ultimate goal of achieving Zero Accidents due to driving of vehicles and operation of mobile equipment.

The purpose of this policy is to reduce injuries and property loss by promoting a safe driving culture within the Group.

All employees and contractors of The Group are required to adhere to this policy when driving or operating Group owned or leased vehicles/mobile equipment as well as when driving their personal vehicles during business use.

Our Commitment

- Provide Group owned or leased vehicles, with all legal documentation for use by employee/driver.
- Ensure all Group owned and leased vehicles are well maintained, in good running condition, suitable for the purpose and equipped with the necessary safety and emergency devices.
- Record and analyze accidents with a view to identifying root causes and define corrective and preventive measures to avoid their reoccurrence.

The following control measures must be implemented, in conjunction with local and international traffic regulations.

- Sultanate of Oman Traffic Rules & Regulations and Al's HSEMS will be applicable for vehicle driving and operating of equipment within the Group premises.
- Driver must have a valid driving license for the class of vehicle to be driven/operated.
- Driver must be physically able to perform the duties of driving or operating equipment.
- Vehicles shall be parked at designated areas only and reverse parking is mandatory whenever indicated.
- The Group controlled roads shall be designed according to local regulations and standards and provided with suitable safety signage.
- Transportation of heavy equipment shall be carefully planned, supervised and controlled to manage and reduce associated risks.
- Behaviour of Group and contractors employees will be monitored. A reward/penalty system will be implemented based on individual's driving behaviour.
- Driver should be aware of weather forecast and road conditions on a planned journey and, if required, rearrange the journey in case of adverse conditions.
- Driver and passengers must wear seat belts at all times.
- Driver must not exceed speed limits and obey local traffic laws.
- Driver must maintain a safe stopping distance from the vehicle in front.
- Driver must not use a hand held phone while driving.
- Driver must have a list of emergency contacts in the vehicle who can be immediately contacted in case of accidents or in emergency situations.
- Driving under influence of alcohol, drugs or other controlled substances is strictly prohibited.
- This policy is mandatory for employees and will be reaffirmed and measured by management on a regular basis.
